⁷**Important Note:** Due to the unique inboard positioning of the low beam headlamps on this vehicle, on sensor Models with HID (Xenon) headlamps some minor shadowing can be expected from the bull bar and other accessories. This does not affect the headlight performance or compliance with ADRs. ARB recommends fitting the Sahara style bar to sensor Models. Some Models can also have an optional centre grille located camera. Vision from this camera will unavoidably be obstructed in some cases where bars and accessories are installed. The radar anti collision system option in Kakadu and ZR is also located in the grille badge. Structures forward of this device may affect the operation of this device.

¹⁰Recommended For Winch Fitment On sensor Models Where Anti-Collision System Is Located In The Grille.
